2026 FX Cruiser HO

Take a leap forward into cruising comfort and style with the FX Cruiser HO. The reimagined racy red with grey and black colours will make you stand out, whilst the heady blend of powerful, High Output Yamaha engine, smooth-riding hull and revolutionary RiDE® control system will bring you unequalled performance and widen your riding horizon.

Expand your horizon.

Feel the power of the 1,898cc HO engine. Explore the agile, surefooted handling of the sleek hull design, coupled with a lightweight NanoXcel2® deck, the revolutionary level of intuitive control offered by our exclusive RiDE® system, as well as the ingenious electronic control systems and the enhanced display user interface. There will be no going back!

Your journey of discovery continues as you explore the remarkable 7-inch Connext® display with Security and Enhanced Drive Control Modes, the adaptive trim system, and a host of other features including an extended stern platform, adjustable steering tilt, three-person cruiser seat and pull-up cleats. Also, the Yamaha Music integrated audio system for ultimate sound clarity and quality at any speed is included.

2026 FX Cruiser HO - BITNE KARAKTERISTIKE

Aerodynamic shape

The capable hull of the FX Cruiser HO model cuts through the water, providing stability on any offshore adventure. Impressively rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, a higher top speed, greater economy, and an even more comfortable ride. Pair this with a lightweight NanoXcel2® deck and you've got all you need for incredible adventures.

Luxury, comfort, footwell drainage and easier re-boarding

From four-step, tilt-adjustable steering to a luxury three-person cruiser seat; from practical handlebar tie points to a large swim platform with a deeper, wider, softer, more comfortable step and dual handles for re-boarding; the FX Cruiser HO really does have it all. It even has an industry-first footwell drainage system.

30% more storage for even bigger adventures

We've designed around 30% more easy-access storage into our FX models so your adventures can be longer and take you further. There are cleverly integrated, practical storage solutions all around: a very large watertight glovebox compartment, generous storage under the seats, at the bow and stern.

Complete control, minimal effort

Our sophisticated electronic control system will delight you with its 'intelligent' features. Use Cruise-Assist to set and maintain exact speeds, the three-position No Wake Mode to navigate through low-speed areas and electronic Reverse-Assist and T.D.E. (Thrust Directional Enhancement) for ultra-low speed manoeuvring and docking.

RiDE® system (Reverse with intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate and pull the lever on the left grip to slow down or to reverse. It's really that simple!

Take your adventure in a new direction

Go on bigger, better journeys as Cruise Assist allows to you go further in more comfort. Water skiers or wakeboarders will love the constant speed, delivered with minimal effort. No Wake Mode allows you to go anywhere, exploring hidden quiet coves or harbours with ease.

High Output, DOHC, 16V, 1,898cc engine

Power delivery from the large displacement, High Output 1,898cc engine is exhilarating and the Hyper-Flow jet pump with its three-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Yamaha Music integrated audio system

The integrated factory-installed audio created by Yamaha Music means speakers are bigger than previous models and come with a sleek design and integrated speaker boxes. With the new audio system, the sound quality is also elevated to new heights. As you speed up or slow down, the volume, treble, and bass automatically adjust, adapting to the surrounding sonic environment, and enhancing listening pleasure.

Unique, simple-to-use security system

With this innovative system there's no separate remote control to worry about. Just use a PIN code to set and unset your security and control modes via a touch on the Connext® display screen.

Enhanced Drive Control Modes

Intuitive riding experience through the new Connext® display featured Enhanced Drive Control Modes: Economy, Towing, Performance, Comfort, and Custom. The last allows you to pre-set a top-speed limit and an acceleration curve, making it the perfect partner for novice riders. Set a steady speed on longer trips for maximum economy.

7-inch colour touch screen display

See the bigger picture in full colour on the largest screen we offer on a WaveRunner. It's GPS map-ready and complete with smartphone synchronisation.
