

MT-07 35kW

Sa preko 160.000 prodatih jedinica, MT-07 je držao poziciju broj 1 u svojoj klasi od kada je lansiran. Sa svojim 690cc CP2 motorom od 690 kubika, kompaktnom i okretnom šasijom i izvanrednom svestranošću, nemoguće je ne voleti lamahin najprodavaniji Hyper Naked.

Pronađite svoju tamu

Najnoviji model ima 5-inčne TFT instrumente sa promenljivim stilovima ekrana - i mogućnost povezivanja sa pametnim telefonom. Novi upravljači daju povećanu upravljivost, čineći MT-07 jakim performansama gde god da vas odvede - od prometnih gradskih ulica do krivih planinskih puteva. Kada je u pitanju stil, MT-07 je pravi zaokret. Njegova prepoznatljiva karoserija ima dva usisnika za vazduh tipa krila i kompaktna LED svetla koja daju smeo i futuristički izgled koji deli isti DNK kao i svaki lamaha Hyper Naked. A sa svojom prirodnom ergonomijom, pristupačnom visinom sedišta i fleksibilnim položajem za vožnju, to je vrhunski svakodnevni bicikl! To što ste lider na tržištu govori vam mnogo o MT-07. Bio je to najprodavaniji Hyper Naked svake godine od njegovog lansiranja 2014. Ali ono što možda ne znate je kako je nastala cela ideja iz MT koncepta.

MT-07 35kW - BITNE KARAKTERISTIKE

Aggressive MT design

In order to make a strong visual statement of the torque and power of the MT-07, the air flow is the theme incorporated into the styling from the side view. A more organic and mature feeling, this MT design emphasizes the pure Hyper Naked character with its compact body design, integrated lighting and pure body surface design.

5" TFT display with smartphone connectivity

The MT-07's 5-inch TFT instruments can be set to Street Theme or Touring Theme to suit your individual requirements. With the smartphone connectivity via the free MyRide app, you can view incoming call and message notifications on the TFT meter, as well as monitor all key parameters of the bike on the app.

Torque-rich 690cc CP2 engine

Developed using Yamaha's crossplane technology, this grin-inducing 2-cylinder gives an engaging engine response with easy-to-use performance and vibrant sound.

Assertive riding position

The wide tapered aluminium handlebars give an assertive riding position, increasing the “big bike” feeling of the model, while keeping an easy riding character.

LED projector lighting

Compact LED lighting gives clear, powerful illumination at night. High-Low LED projector headlight gives the signature MT design, plus improved visibility.

Large diameter dual front disc brakes

For ultimate controllability at all speeds, the MT-07 is fitted with large diameter 298mm dual front brake discs, actuated by 4-pot calipers cylinder brakes, delivering progressive braking with no additional unsprung weight. This best-selling Hyper Naked is designed to give you the highest level of control and the dual 298mm front discs and 4-pot calipers deliver progressive braking power at all speeds.

High performance tyres

Michelin Road 5 tyres provide sporty, secure handling characteristics for all levels of riders, especially in poor road conditions and bad weather, in addition to improved tyre wear longevity.

LED turn signals

High intensity front and rear LED turn signals provide a modern, compact image while remaining clearly visible to other traffic.

Colour, graphics and finishing

Latest colours and graphics maintain the fashion leading focus, supported by refined detailing: blacked out components including brake/clutch levers, as well as neat wiring in the cockpit.

MT-07 35kW - TEHNIČKA SPECIFIKACIJA

Motor

Tip agregata	2 - cilindara, 4-takta, Hlađenje tekućinom, DOHC, 4-ventila
Zapremina	689 cm ³
Obrt x hod	80.0 mm x 68.6 mm
Promer kompresije	11.5 : 1
Maksimalna snaga	54,0 kW (73,4 KS) @ 8.750 o/min
Maksimalan okretni moment	67,0 nm (6,8 kg-m) @ 6.500 o/min
Sastav podmazivanja	Mokri karter
Tip kvačila	Mokro, Višestruki diskovi
Rasplinjač	Ubrizgavanje goriva
Sastav paljenja	TCI
Sastav pokretanja	Električno
Sastav prenosa	Stalan otvor, 6-brzinski
Završni prenos	Lanac
Prosečna potrošnja	4,2 l/100km
CO2 emisija	98 g/km

Šasija

Okvir	Dijamant
Sastav prednjeg ogibljenja	Teleskopske viljuške
Hod prednjeg ogibljenja	130 mm
Ugao prednje viljuške	24°50
Predtrag	90 mm
Sastav zadnjeg ogibljenja	Swing unit, link
Hod zadnjeg ogibljenja	130 mm
Prednja kočnica	hidraulični dvostruki disk, Ø 298 mm
Zadnja kočnica	Hidraulični disk, Ø 298 mm
Prednja guma	120/70 ZR 17M/C(58W) (Tubeless)
Zadnja guma	180/55ZR17M/C (73W) (Tubeless)

Dimenzije

Ukupna dužina	2.085 mm
Ukupna širina	780 mm
Ukupna visina	1.105 mm
Visina sedišta	805 mm
Međuosovinski razmak	1,400 mm
Minimalna udaljenost od tla	140 mm
Težina (s punim rezervoarom ulja i goriva)	184 kg
Kapacitet rezervoara za gorivo	14 L
Kapacitet rezervoara za ulje	3,0 L
