

2025 VX-EU

Passion meets practicality with the VX-EU. The 3-cylinder 1,049cc engine is capable of delivering thrill inducing speeds, whilst separate storage areas mean plenty of space for picnics and all your essentials when you're out for a gentle cruise.

Ready for any adventure.

Life's no popularity contest, but when it comes to WaveRunners, it's worth taking note. Versatility tops the charts of the many factors that make the VX models our most sought-after personal watercraft. An impressive performance repertoire that takes you from the adrenaline-pumping excitement of water sports to relaxed explorations of charming waterways and hidden coves inspires enduring loyalty.
Whilst variety is the spice of life for your adventures on the VX-EU, the predictable reliability and precision engineered durability of this model make it a popular choice for individual owners and rental companies alike. An ultra cool white colour with on-trend teal accents make this WaveRunner look as good as it feels.

2025 VX-EU - BITNE KARAKTERISTIKE

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a new feeling of confidence to every rider at every level. Simply pull the lever on the right hand-grip to move forward and accelerate, and pull the lever on the left grip to slow down or reverse. With the bonus of Reverse Traction Control, it really is that simple.

3-cylinder, 4-stroke, 1,049 cc TR-1 engine

The VX-EU is powered by our newest innovative 3-cylinder, 1,049cc WaveRunner engine. This remarkable machine packs a real punch and offers extraordinary acceleration and great top-end power yet with economy and comfort features integrated.

Extensive and practical storage facilities

The latest VX-EU has ample amounts of storage space so that you can take everything you might need along with you. Not only do we ensure plenty of space under-seat and bow moulded cooler storage, but in addition, the very large, watertight glove box has blue LED accent lighting, USB and 12V outlets to secure and charge your phone.

Sleek, modern design and striking graphics

We wanted the latest VX-EU to look good as well as feel good, so we’ve added a powerful, attractive graphics scheme that’s sure to catch the eye as you blast across the water. With the stunning colours and modern design, it's sure to look great at the dock too.

Comfortable seat design and optimum handling

Both the super-comfortable seats and the handlebar of the VX-EU are narrower designs which provide an excellent ergonomic sitting and driving position. Together with the deeper, wider footwells and redesigned grips, this gives (especially to short riders) great control over the handling.

2025 VX-EU - TEHNIČKA SPECIFIKACIJA
