

2026 JetBlaster PRO

The JetBlaster PRO is the ideal choice for all-action fun. Featuring a top-quality engine, a great power-to-weight ratio, multi-function colour display, and Yamaha's revolutionary RiDE® system and T.D.E. for intuitive control, it guarantees thrill seekers exciting agility and user-friendly handling to quickly conquer the waves. And with the racy colour scheme which adds striking blue to the existing colour mix for a really stand out look plus sporty graphics, you're sure to catch every eye.

Ride like a PRO.

Our JetBlaster PRO is ready for fun and exciting riding, with foot chocks enabling near-instant mastery of tricks, flicks and stunts; a handlebar that's purpose-built for slick moves, and an enhanced electric trim for easy control and instant gratification. The PRO also has a handy reboarding step to making getting back on a doddle.

Yamaha have crafted the JetBlaster PRO's high-quality hull from innovative, durable NanoXcel2®, making it both strong and lightweight. Fuse this with a TR-1® High Output engine and power-to-weight ratio, and you get some serious thrill-seeking potential.

2026 JetBlaster PRO - BITNE KARAKTERISTIKE

TR-1® High Output 1,049cc, 3-cylinder engine

The JetBlaster is powered by our innovative 3-cylinder engine, the 1,049cc High Output TR-1. This remarkably compact and lightweight unit packs a real punch and offers lively acceleration and great top-end power, plus economy and reliability. A great power-to-weight ratio means you get thrilling speed and agile handling.

Custom designed handlebar and chocks

The JetBlaster PRO's handlebars have been designed with a smooth curved shape, providing intuitive support for a unique riding style. Foot chocks allow you to easily adjust your weight, opening up a more playful freestyle ride.

Lightweight hull for top performance

Made possible by Yamaha's unique materials technology, NanoXcel2® is an impressive 18% lighter than our revolutionary NanoXcel® yet just as rigid and strong. It maximises the exciting performance of the JetBlaster, helping it deliver its superb acceleration and even sharper cornering.

Manoeuvre with confidence

T.D.E. (Thrust Directional Enhancement) makes ultra-low speed manoeuvring and docking a breeze, so you'll look as slick by the shore as you do on the waves. When you're in action, Drive Control allows you to limit top speed, designate preferred acceleration curves, and set and save different trim modes, whilst Cruise Assist sets a consistent engine speed reducing throttle fatigue, and No Wake Mode caps the engine's RPMs at an easy idle speed.

RiDE® system (Reverse with intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate and pull the lever on the left grip to slow down or to reverse.

4.3-inch multi-function colour display with fast access

Among its many talents, this clear and easy-to-read display helps you control and monitor all the systems onboard, using the fast-access buttons next to the unit. Top speed and acceleration limits can also be entered from here along with the PIN code-activated learning (L-Mode) and security settings. We put the latest technology to work for you.

Storage as standard

Take everything with you, as standard. The JetBlaster offers wet storage in the bow for tow lines beach games and more. Underseat storage provides a spacious and handy location for all your adventure essentials. The glove box provides easy access to your shades, snacks and other bits you need to have to hand.

Performance-inspired electric trim

Adjust the height of the bow on the go. Raise the bow to reduce water spray and nose-diving, then dip down low for more grip in the corners. A smoother, more skilful ride is just a touch away.

A modern classic

Own a modern twist on a classic, with heritage Yamaha styling and characteristics. The JetBlaster features modern graphics, advanced engineering and uncompromising build quality. It looks every bit as good as it feels to ride.

Water sports ready

Take playtime beyond the footplates as the TR-1® High Output engine provides enough kick to support your water sports action. A raised towing point means easier set-up and a better experience for wakeboarding and water skiing. Finished with that sort of fun? A cushioned reboarding step welcomes you back on board.

2026 JetBlaster PRO - TEHNIČKA SPECIFIKACIJA

Engine

Engine type	3-cylinder, 4-stroke TR-1 High Output Yamaha Marine Engine
Displacement	1049 cc
Fuel	Unleaded Regular Gasoline
Fuel capacity	50 l
Oil capacity	3,4 l

Dimensions

Length	3 m
Width	1,14 m
Height	1,18 m
Dry weight	244 kg

Features

Storage Capacity	5,5 l
Rider capacity	1 - 2 people

The Yamaha Difference

RiDE	Da
Electric trim	Da
Storage	5.5 L
Connex	4.3"
Audio	None
