

2026 FX HO

The FX HO is an outstanding choice for touring relaxation or sporty thrill-seekers. This personal watercraft promises to provide the ideal balance of performance and comfort and a variety of features designed to increase riding pleasure. You'll be going to fall head over heels in love with this sophisticated-looking machine with understated blues and greys that are harmonious with the water.

All-round amazing.

The bold 1,898cc engine, with its high-pressure fuel pump and intelligent electronic throttle control system, delivers smooth, powerful and efficient performance. The elegant hull and lighter-weight NanoXcel2® deck, combined with the remarkable RiDE® system, promise the most comfortable, stable handling you've ever experienced.

The FX HO is a true all-rounder, with features like the 7-inch Connex® display with Security and Enhanced Drive Control Modes, No Wake Mode and Cruise Assist, luxury seating for three, a large, stable swim platform, an extra deep re-boarding step, dual grab handles, plenty of storage space that guarantee top-notch experience alone, with your partner, family or friends.

2026 FX HO - BITNE KARAKTERISTIKE

Simple and sports-ready

The tow hook offers a higher tow point, which enables a new level of exciting water sports action. It's also easier to access, removes the need for a towing bridle and offers tidy tow line storage beneath.

Ride your way

Ride the way you want. Pop your handlebar up and stay standing in rough waters, head for the middle ground for an ultra-comfortable cruising experience, or go low when you're ready to race. Your screen is also adjustable, so you can change the performance and appearance to be a perfect match for whatever adventure you're on.

Luxury, comfort, footwell drainage and easier re-boarding

From four-step, tilt-adjustable steering to a luxury three-person cruiser seat; from practical handlebar tie points to a large swim platform with a deeper, wider, softer, more comfortable step and dual handles for re-boarding; the FX HO really does have it all. It even has an industry-first footwell drainage system.

RiDE® system (Reverse with intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a feeling of confidence to every rider... at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate, pull the lever on the left grip to slow down or to reverse. It's really that simple!

Enhanced Drive Control Modes

Intuitive riding experience through the new ConnexT® display featured Enhanced Drive Control Modes: Economy, Towing, Performance, Comfort, and Custom. The last allows you to pre-set a top-speed limit and an acceleration curve, making it the perfect partner for novice riders. Set a steady speed on longer trips for maximum economy.

Aerodynamic shape

The capable hull of the FX HO model cuts through the water, providing stability on any trip. Impressively rigid and robust, it gives these machines awesome on-water performance with stunning acceleration, high top speed, great economy and an even more comfortable ride.

High Output, DOHC, 16V, 1,898cc engine

Power delivery from the large displacement, High Output 1,898cc engine is exhilarating, and the Hyper-Flow jet pump with its three-blade impeller helps turn that power into electrifying acceleration. The Electronic Fuel Injection (EFI) gives the smoothest possible power output and efficient, economical running, even on regular unleaded fuel.

Complete control, minimal effort

Our sophisticated electronic control system will delight you with its clever features. Use Cruise-Assist to set and maintain exact speeds, the three-position No Wake Mode to navigate through low-speed areas, and electronic Reverse-Assist and T.D.E. (Thrust Directional Enhancement) for ultra-low speed manoeuvring and docking.

Unique, simple-to-use security system

With this innovative system there's no separate remote control to worry about. Just use a PIN code to set and unset your security and control modes via a touch on the ConnexT® display screen.

7-inch colour touch screen display

See the bigger picture in full colour on the largest screen we offer on a WaveRunner. It's GPS map-ready and complete with smartphone synchronisation.
