

2026 FX SVHO

Bring a big grin to your face as you get your heart racing and conquer the waves with the latest FX SVHO in striking deep purple and black that stand out without shouting. Be ready to supercharge adventures your way in adrenaline-pumping luxury and performance, the two distinctive sides of this outstanding powerful three-seat touring WaveRunner.

Supercharge your adventure.

Don't compromise on comfort or performance. The supercharged SVHO engine and capable hull are a perfect double act – smooth, impressive power, coupled with stable, agile handling for a supremely comfortable ride.

Cutting-edge technology and innovation are fully packed in this astonishing design - with our revolutionary and intuitive RiDE® control system, adaptive electronic trim, Cruise Assist and integrated security feature. The FX SVHO now also comes with a Yamaha Music integrated audio system for ultimate sound clarity and quality at any speed.

2026 FX SVHO - BITNE KARAKTERISTIKE

RiDE® system (Reverse with Intuitive Deceleration Electronics)

The revolutionary RiDE® system transforms your riding pleasure, bringing a feeling of confidence to every rider at every level. Simply pull the throttle lever on the right hand-grip to move forward and accelerate and pull the lever on the left grip to slow down or to reverse. It's really that simple!

Unique, simple-to-use security system

With this innovative system there's no separate remote control to worry about. Just use a PIN code to set and unset your security and control modes via a touch on the Connext® display screen.

Multi-mount accessory system

Wouldn't you like to have a way to take your chosen accessories with you when you set off for a day on the water? The multi-mount system means you can take your GPS/fish finder, your GoPro, or even your cup of coffee securely mounted to the great-looking body of the FX SVHO.

30% more storage for even bigger adventures

We've designed around 30% more easy-access storage into our FX models so your adventures can be longer and take you further. There are cleverly integrated, practical storage solutions all around: a very large watertight glovebox compartment, generous storage under the seats, at the bow and stern.

Supercharged, DOHC, 16V, 1,812cc engine

The amazing SVHO® (Super Vortex High Output) engine produces smooth, flexible power and features highly efficient cooling and air intake systems as well as strong engine internals. The large Hyper-Flow jet pump helps turn that power into electrifying acceleration and the Electronic Fuel Injection (EFI) provides smooth and efficient power output.

7-inch colour touch screen display

See the bigger picture in full colour on the largest screen we offer on a WaveRunner. It's GPS map-ready and complete with smartphone synchronisation.

Comfort, footwell drainage and easier re-boarding

From tilt-adjustable steering to a three-person seat, including a large swim platform with a deeper and wider step and dual handles for re-boarding, the FX SVHO model really does offer more comfort, plus an industry-first footwell drainage system.

Aerodynamic shape

The capable hull of the FX SVHO model cuts through the water, providing stability on any offshore adventure. Impressively rigid and strong, it gives these machines awesome on-water performance with stunning acceleration, high top speed, great economy and an even more comfortable ride.

Yamaha Music integrated audio system

The integrated factory-installed audio created by Yamaha Music means speakers are bigger than previous models and come with a sleek design and integrated speaker boxes. With the new audio system, the sound quality is also elevated to new heights. As you speed up or slow down, the volume, treble, and bass automatically adjust, adapting to the surrounding sonic environment, and enhancing listening pleasure.

Enhanced Drive Control Modes

Intuitive riding experience through the new Connext® display featured Enhanced Drive Control Modes: Economy, Towing, Performance, Comfort, and Custom. The last allows you to pre-set a top-speed limit and an acceleration curve, making it the perfect partner for novice riders. Set a steady speed on longer trips for maximum economy.

2026 FX SVHO - TEHNIČKA SPECIFIKACIJA
