## Tricity 300

The Tricity 300 is ready to change your life. Because this 3-wheel scooter gives a feeling of stability and confidence - and being the lightest and most stylish model in the class it's the smartest way to move in the city. And the good news is that you can ride it on your full B\* car licence! (\*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two or three wheeled vehicles.)

### **Make your Move.**

Everything about this premium Urban Mobility vehicle is designed to make commuting simple, easy and fun. The dual leaning front wheels provide additional grip for smooth cornering - and the lightweight steering and narrow dimensions make it easy to filter through congested streets.

Every time you come to a stop the Standing Assist System is a welcome convenience - and when you pull away the responsive 292cc Blue Core EURO5+ engine gets you to your destination in record time. With beautifully styled bodywork and a class-leading specification, the Tricity 300 is the best way to make your move.

## Tricity 300 - BITNE KARAKTERISTIKE

### 3-wheel Urban Mobility with Tricity DNA

Yamaha is opening up the world of Urban Mobility to an even wider audience with Tricity 300. Offering dynamic styling and versatile performance together with best-in-class specifications and user-friendly technology, this accessible 3-wheel scooter can be ridden with a full B car license\*, giving more people the chance to move freely around the city.

(\*Limitations and restrictions may apply per country under applicable laws. Additionally, Yamaha recommends all riders to take a motorcycle training course before riding any two or three wheeled vehicles.)

### Economical and powerful 292cc Blue Core EURO5+ engine

Driven by a powerful and economical 292cc Blue Core EURO5+ engine Tricity 300 takes Urban Mobility to another level. The liquid-cooled single cylinder 4-stroke engine produces plenty of power for longer distance highway riding – and with its strong and smooth low-speed torque and optimized automatic transmission, you just twist and go!

### Premium finish lightweight EURO5+ exhaust

Updates include a new EURO5+ compliant exhaust equipped with a high-quality muffler cover that enhances the Tricity 300's premium finish. This new exhaust system not only helps to reduce emissions, but its lightweight construction also contributes towards this 3-wheel scooter's agile and easy-handling character.

### Large storage space

As well as its sporty good looks, sleek bodywork and best-in-class specifications, the dynamic Tricity 300 is also an extremely practical and functional vehicle. There's storage space for two full-face helmets or an A4 briefcase, and you can operate the ignition and locks with the convenient Smart Key. There's also a DC outlet in the front panel for your devices.

### Standing Assist System

Urban commuting usually involves a lot of stop-start riding, so Yamaha has developed a Standing Assist System to provide added convenience when you stop at lights or junctions.

### Lightest in class / Great autonomy

The Tricity 300 is designed to give you the lightweight agility of a scooter with the added feelings of confidence and stability that come with 3 wheels. As well as being the lightest model in the class it's also got one of the highest specifications – and with its 13-litre tank and aerodynamic body and screen, it's the smarter choice for long journeys.

**Large diameter disc brakes with ABS**

The Tricity 300's 3-wheel layout gives enhanced feelings of stability and confidence in a wide range of surfaces and riding conditions. Its best-in-class 267mm diameter front and rear discs deliver plenty of stopping power - and Yamaha's unified braking system and ABS on every wheel give you greater control in wet or slippery conditions.

**Parking brake and foot brake**

Whenever the Tricity 300's foot brake pedal is pressed the Unified Brake System automatically equalizes braking force to the front wheels and back wheel to ensure smooth stopping force for gentle chassis behaviour. And this 3-wheel scooter also comes equipped with a parking brake featuring an easy to operate ratchet type lever.

**LCD instruments and high-quality finish**

The Tricity 300 is a high-end vehicle with a quality look and premium finish. Its class-leading specification includes an auto-style instrument panel that displays key information in a clear and easy to understand style. Indicator lights show ABS, Standing Assist System, TCS and ambient air temperature - with a useful warning that comes on at 3°C and lower.
