2025 TMAX Tech MAX

TMAX Tech MAX is Yamaha's premium large capacity Sport Scooter with all the features of the TMAX plus more, making it an ideal choice for riders who are looking for the ultimate multi-role high-performance model. Equipped with dynamic new dual-eye headlights and sleeker front bodywork, this iconic machine delivers a riding experience beyond compare.

MAX is in details.

Its powerful 560cc EURO5+ engine and refined automatic transmission make this Yamaha's fastest and smoothest Sport Scooter. The motorcycle-type aluminium chassis and adjustable suspension provide precision handling. And for supreme comfort the TMAX Tech MAX comes with a luxury heated seat, heated grips and an electronically adjustable screen.

For the highest degree of controllability the TMAX Tech MAX benefits from best-in-class electronic rider aids including a new Brake Control system, as well as Cruise Control, Traction Control and 2-position D-MODE. And its connected 7-inch dash features free Garmin Navigation* to give you the best commuting, leisure and touring routes. (*Full map Garmin Navigation is available free of charge for eligible TMAX models but is not offered in all countries. Some navigation features are not available in all countries.)

2025 TMAX Tech MAX - BITNE KARAKTERISTIKE

Electrically adjustable screen

With the highest standard specification of any Yamaha Sport Scooter, the TMAX Tech MAX is equipped to provide you with a luxurious ride all year round. Giving 110mm of movement, the electrically adjustable screen enables you to choose the ideal position to suit your physique and riding style.

Heated grips and heated seat

This premium Sport Scooter isn't just one of the best looking two wheelers on the street - it's also built to perform strongly wherever you choose to go. And to underline its genuine everyday functionality it is equipped with heated grips and a leather-look heated seat that provide you with enhanced riding comfort throughout the year.

Rider's aids

TMAX Tech MAX is equipped with an exclusive Cruise Control system that makes long journeys more enjoyable. Traction Control and Brake Control give added riding confidence on loose and wet surfaces - and the 2-position D-MODE lets you select smooth or sporty engine character options. And the TMAX Tech MAX is now equipped with a Tyre Pressure Monitoring System (TPMS) for added riding confidence.

560cc EURO5+ compliant engine

The TMAX Tech MAX is driven by a compact 560cc 2-cylinder engine that produces 35kW, giving smooth and powerful 'twist and go' performance. The latest design is fully EURO5+ compliant, making it ideal for commuting into city centres with low emission zones. A newly designed centrifugal clutch ensures that the fully automatic transmission delivers seamless acceleration - and for quieter low rpm operation there's an improved exhaust.

Refined body and headlight

TMAX Tech MAX is continuously evolving, and the latest generation of this iconic machine features a restyled front end that underlines its dynamic good looks. New dual-eye headlights and position lights - together with redesigned front bodywork - give a more compact and sportier look, reaffirming this legendary model's status as the ultimate multi role luxury Sport Scooter.

7-inch TFT screen with Garmin Navigation

The high tech 7-inch TFT screen gives you class leading HMI - a wide range of easy-to-read information, a new meter theme and intuitive control of your TMAX Tech MAX features. Full-map Garmin Navigation* is now completely free of charge through the Garmin Motorize App*. With functionality like traffic, weather and POI's, you'll be fully informed on every journey. (*Full map Garmin Navigation is available free of charge for eligible TMAX models but is not offered in all countries. Some navigation features are not available in all countries.)

Enhanced connectivity

Enhanced connectivity enables owners to easily link their smartphone to the TMAX Tech MAX with the MyRide link. As well as keeping in touch with friends, family and work colleagues or listening to music*, MyRide also gives you access to a wide range of functions and services including a riding log, fuel consumption, parking location and more. (*Audio services require a separate headset with Bluetooth communication.)

Comfortable ergonomics

With its spacious interior, natural riding position and high specification motorcycle-style frame and adjustable suspension, the TMAX Tech MAX delivers an unrivalled ride quality. The large footboard area lets you choose from a range of sporty or relaxed riding positions, and the deeply padded dual seat with an adjustable rider backrest makes this iconic Sport Scooter one of the most comfortable ways to travel!

Machined wheels

Lightweight spin forged aluminium wheels feature a high-quality machined finish to accentuate the TMAX Tech MAX's exclusivity. The 120/70-15 front tyre and a wide 160/60-15 rear tyre provide high levels of traction for confident roadholding - and for outstanding controllability the TMAX Tech MAX is equipped with 267mm diameter dual front disc brakes and a 282mm diameter rear disc brake.

Lightweight aluminium frame

TMAX Tech MAX has led the way in Sport Scooter chassis design right from the beginning. For optimum chassis strength and precision handling the 560cc engine is mounted directly into the lightweight aluminium twin-spar die-cast frame. More advanced motorcycle-derived technology can be seen in the use of a long aluminium swingarm and adjustable suspension that contribute significantly to high-speed stability.

Large storage space

Flip up the luxurious dual seat and you'll be able to access the illuminated storage compartment that makes this high-performance Sport Scooter a truly practical all-rounder. Designed to accommodate one full-face helmet or two jet helmets (depending on their size and shape), it's also a great place to carry groceries or sports gear.

Smart Key keyless operation

As well as its outstanding performance, the TMAX Tech MAX is big on comfort and convenience. Its Smart Key keyless system allows you to start the engine, unlock the seat, release the centre stand and open the fuel cap. Just keep the Smart Key in your pocket and the TMAX is ready to go at a moment's notice.

2025 TMAX Tech MAX - TEHNIČKA SPECIFIKACIJA

Motor
